The worker is assessed before he starts his course,
and 3 reports (1 each 20/33h stage) is provided with
all the progress both in class & online.

When was the last time you learnt something without practising?

Difficult right? Do your workers take the time
to do their homework at home? Do you take
the time?

We have the solution. We create the fictional
work environment that will take 4h out of your
week, and you won't even notice.

Throughout the 3 20h stages, the student will
develop the 3 main skills any international
worker needs (*emailing, meetings, presentations*)
as well as the general business English in a
bespoke course tailored to the companies
industry & needs.

The student will feel comfortable in any work
situation as *chit-chat* is also covered in a
casual and invigorating way.

So imagine, you are sitting at your desk, and
you get an email from ULIC Centre, a fictional
supplier who wants to sit down and discuss
possible solutions for your company. A date
must be set, a presentation designed...

Your course starts here, let us help you along
the way.

What is the objective? Efficient Global Skills
